

FOR IMMEDIATE RELEASE

The Colony at Half Moon Offers Gracious Caribbean Living

Taking advantage of the beauty of Jamaica's lush landscape and Half Moon's unhindered private two mile beach will be the central to the design of each of the luxury villas at *The Colony at Half Moon*. The 30 luxury villas of *The Colony at Half Moon*, located in the exclusive resort enclave of Rose Hall, Jamaica, will be designed to reflect Jamaica's traditional colonial architecture, blended with the natural coastal environment of the 14-acre site on Half Moon's 400-acre estate.

Featuring an open, pavilion-style floor plan, the three-, four- and five-bedroom villas will enjoy sea views with deep porches and balconies that take advantage of the prevailing Caribbean breezes.

Private walkways through lush gardens will lead to intricately custom-designed front doors that open to spacious living rooms or Great Rooms – the heart of each of the spacious villas. Outdoor infinity pools stretch just beyond the opulently furnished Great Rooms with retractable French doors. Individual rooms or "pavilions", linked by walkways will surround the pool, taking advantage of the tropical climate. With oversized terraces and verandahs, outdoor rooms and relaxation coves *The Colony* villas offer inviting opportunities for maximum outdoor living.

Ranging in size from 3,000 to 5,500 square feet, the villas will offer natural stone floors throughout, oversized gourmet kitchens equipped with top range appliances, intricate mahogany millwork on doors, windows and trim, granite counter tops, along with other top of the line features and amenities.

Completing the ultra luxury living experience will be the unrivalled service of a full complement and staff of a butler, housekeeper, cook laundress and gardener assigned to each villa.

For more information on *The Colony at Half Moon*, visit www.thecolonyathalfmoon.com or call (876) 953-2211.
